

Hazel Morley

Owner, Think Smart Training & Coaching

“The five years I worked as an Associate for Mancroft, presenting The Winning Edge, were the most rewarding, stretching and enjoyable times. I know from personal experience that this stuff works...and sticks! Over the years I heard many amazing stories from others who made life changing decisions as a direct result of their Winning Edge experience and the tools they received.

This programme helps you to get out of your own way so you can achieve more of what's important to you and enjoy it along the way. At the helm of the business is Richard - an inspiration and a wonderful role model, colleague and father. Two of his many best bits are his wicked sense of humour (how I miss that!) and his pragmatism. The Winning Edge delivers and produces benefits that keep returning, long after the investment.”
